

International Congress of Phonetic Sciences ICPhS 2019
Melbourne Convention and Exhibition Centre
Poster listing: 5 - 9 August 2019
Main Foyer 2 & 3

Monday 5 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
33		Matthew Jay Carroll	Prenasalised voiceless stops in Ngkolmpu	Laboratory phonology
121		Daiki Hashimoto	Exemplar Averaging of Phonetically Distinct Variants	Laboratory phonology
186		Sheng-Fu Wang	Velar syllabic nasal and its phonological interpretation in Taiwan Southern Min	Laboratory phonology
304		Nief AL-Gamdi	The acoustic properties of Voicing Contrast in Najdi Arabic Initial Stops	Laboratory phonology
305		Fang Hu	Phonetics and phonology of the -er suffix in the Hangzhou Wu Chinese dialect	Laboratory phonology
391		Kenneth Olson	Reanalyzing the Banda-Linda Vowel System	Laboratory phonology
881		Mauricio A. Figueroa Candia	Evidence of phonological /w/ and /j/ in Chilean Spanish: the case of "hi" and "hu" plus vowel	Laboratory phonology
141		Lisa Sullivan	Phonology of gender in English and French given names	Phonetic universals and typology
435		Kristen Wing Yan Wong	Sound Symbolism of Gender in Cantonese First Names	Phonetic universals and typology
507		Haruko Miyakoda	Sound symbolism and its effect in characters' names: a study on consonants	Phonetic universals and typology
95		Noah Elkins	The Phonetics of Anyuak Vowels	Phonation and voice quality
96		Tạ Thành Tấn	Chrau register and the transphonologization of voicing	Phonation and voice quality
204		phil rose	Tonatory Patterns in Taizhou Wu Tones	Phonation and voice quality
903		Kristine Yu	Probing voice quality's contribution to tone perception: challenges and directions	Phonation and voice quality
44		Ludger Paschen	Some remarks on the four-way phonation contrast in Bzhedugh Adyghe	Phonation and voice quality
724		Mechtild Tronnier	Transitions from vowels to voiceless obstruents in Swedish and elsewhere	Phonation and voice quality
861		Rebekka Puderbaugh	Phonetics and phonotactics of vowel laryngealization in Upper Necaxa Totonac	Phonation and voice quality
199		Jia Hoong Ong	Statistical learning among young and older adults: Similar yet different?	Phonetic neurolinguistics
307		Jinghua Ou	Brainstem encoding of voice onset time: Preliminary findings	Phonetic neurolinguistics
1011		Simran Agarwal	Neural sensitivity to linguistic and non-linguistic changes in naturally produced speech sounds: a comparison of different stimuli paradigms	Phonetic neurolinguistics
183		Åsa Abelin	Ungrammatical prosody does not hinder positive evaluations	Phonetics of emotion
484		Rachel Elizabeth Weissler	Sounding Like a Stereotype: The influence of race on emotional prosody perception	Phonetics of emotion
546		Carlos Ishi	Prosodic and voice quality analyses of offensive speech	Phonetics of emotion
717		Bogdan Ludusan	No laughing matter: An investigation into the acoustic cues marking the use of laughter	Phonetics of emotion
1010		Xinyue Li	Japanese emotional speech produced by Chinese learners and Japanese native speakers: differences in perception and voice quality	Phonetics of emotion
50		Jing Yang	Do 3- to 4-year-old Mandarin-English bilinguals separate long-lag VOTs in these two languages?	Phonetics of first language acquisition
108		Wafaa Alshangiti	Learning to speak in a second language: Does multiple talker production benefit production of English vowels in Arabic children?	Phonetics of first language acquisition
114		Ewa Jacewicz	Socially conditioned change in voiced stop consonants in Appalachian children	Phonetics of first language acquisition
378		Kathleen McCarthy	The perception of familiar and unfamiliar accents by bilingual and monolingual children	Phonetics of first language acquisition
390		Rosie Oxbury	Acquiring a multiethnolect: the production of diphthongs by children and adolescents in West London	Phonetics of first language acquisition
487		Andrew Cheng	Age of Arrival does not affect childhood immigrants' acquisition of ongoing sound change: Evidence from Korean Americans	Phonetics of first language acquisition
291		Lei Xi	Acoustic and perceptive studies of Chinese learners producing three basic French intonation patterns	Phonetics of second and foreign language acquisition
329		Jane Setter	The perception of sentence stress in Malay and English	Phonetics of second and foreign language acquisition
353		Sabine Zerbian	Parallels between dialect and bilingual processing	Phonetics of second and foreign language acquisition
536		Dokyung Kwon	A temporal feature of stressed syllables in native English and Korean EFL speech	Phonetics of second and foreign language acquisition
602		Hyunjung Lee	An investigation of the effect of L1 dialect on the L2 perception of lexical stress	Phonetics of second and foreign language acquisition
715		Yiling Chen	The effect of explicit instruction and auditory/audio-visual training on Chinese learners' acquisition of English intonation	Phonetics of second and foreign language acquisition
823		Charles Chang	production of neutral tone in Mandarin by heritage, native, and second language speakers	Phonetics of second and foreign language acquisition
825		Sarah Waldmann	L2 rhythm effects on intelligibility	Phonetics of second and foreign language acquisition
970		Cristina Herrero Fernández	Perception of politeness in Mandarin speech by Spanish learners of Mandarin	Phonetics of second and foreign language acquisition
122		Chen-Hsiu Grace Kuo	Do working memory and autistic traits predict prosody perception?	Phonetics of second and foreign language acquisition
209		Izabelle Grenon	Learning to perceive a non-native vowel contrast without listening: A first report	Phonetics of second and foreign language acquisition
265		James Whang	Perception of Japanese vowel length by Australian English listeners	Phonetics of second and foreign language acquisition
328		Olga Dmitrieva	Language attitudes affect perceived intelligibility, proficiency, and accentedness of non-native speech	Phonetics of second and foreign language acquisition
528		Yuanyuan Zhang	Do cognitive constraints drive second-language listeners' attention to prosodic information in speech?	Phonetics of second and foreign language acquisition
584		José María Lahoz-Bengochea	Spoken word recognition by English-speaking learners of Spanish	Phonetics of second and foreign language acquisition

International Congress of Phonetic Sciences ICPhS 2019
Melbourne Convention and Exhibition Centre
Poster listing: 5 - 9 August 2019
Main Foyer 2 & 3

Monday 5 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
591		Lei Wang	Perception of American English junctures by Chinese EFL learners	Phonetics of second and foreign language acquisition
960		Jian Gong	Investigating the effectiveness of auditory training on Chinese learners' perception of English vowels	Phonetics of second and foreign language acquisition
271		Henna Tamminen	Speech sound perception in monolinguals, bilinguals and learners - Language background affects identification and discrimination differently	Phonetics of second and foreign language acquisition
194		Jonathan Yip	Articulatory and acoustic gradient in Sasak word-final stops /k, ʔ/	Phonetics-phonology interface
211		Yevgeniy Melguy	Phonetic strengthening or phonological substitution? An X-ray microbeam investigation of acoustic and articulatory variability in the production of American English dental fricatives	Phonetics-phonology interface
664		Song Jiang	An EMA study of Er-suffixation in Northeastern Mandarin monophthongs	Phonetics-phonology interface
894		Joaquín Romero	Patterns of constriction degree in Spanish heterorganic consonant sequences	Phonetics-phonology interface
910		Boram Kim	Evidence for Pivots in Tongue Movement for Diphthongs	Phonetics-phonology interface
25		Jessica Barlow	Monolingual speech production in a bilingual context	Sociophonetics and phonetic variation
185		Wladyslaw Cichocki	Prosodic rhythm in regional varieties of French in New Brunswick (Canada)	Sociophonetics and phonetic variation
727		Connor McCabe	Engaging with robust cross-participant variability in an endangered minority variety: Intonation in Déise Irish	Sociophonetics and phonetic variation
730		Folajimi Oyebola	A Sociophonetic Study on TH Variation in Educated Nigerian English	Sociophonetics and phonetic variation
749		Cynthia Clopper	Regional dialect intelligibility across the lifespan	Sociophonetics and phonetic variation
771		Djegdjiga Amazouz	Exploring consonant variation in French-Arabic code-switched speech: the case of the gemination	Sociophonetics and phonetic variation
849		Wenling Cao	Adopting the exemplar-based theories in phonetic convergence: a case of Hong Kong English	Sociophonetics and phonetic variation
962		Xuan Wang	Dialect contact across three generations: A sociophonetic analysis of variation in [ph, th, kh, h] in a contact variety in Hohhot, China	Sociophonetics and phonetic variation
603		Yasuaki Shinohara	Effects of perceptual assimilation: The perception of English /æ/, /ʌ/, and /ɑ/ by Japanese speakers	Sociophonetics and phonetic variation
627		Hwa-min Kim	Novel Features of Vowel Space for Distinction of English L1 and L2 Speech	Sociophonetics and phonetic variation
692		Sven Grawunder	Can formant amplitude differences serve as indicators for L1-effects of ATR in varieties of English in West Africa?	Sociophonetics and phonetic variation
745		Bowei Shao	Apical vowel in Jixi-Hui Chinese: an articulatory study	Sociophonetics and phonetic variation
784		Amanda Dalola	Crossing the parallel: Effects of Residence Duration and Gender in North Korean Refugees' Back Vowels	Sociophonetics and phonetic variation
835		Jaroslav Weckwerth	Formant frequencies of Polish raised /e/ and /a/ in palatal contexts	Sociophonetics and phonetic variation
869		Georgia Zellou	Sub-regional variation in positioning and degree of nasalization of /æ/ allophones in California	Sociophonetics and phonetic variation
179		James Kirby	Perception of laryngeal contrast in Madurese	Speech perception
256		Geoff Schwartz	Beyond VOT in the Polish laryngeal contrast	Speech perception
382		Mirjam J.I. de Jonge	Duration as a voicing cue in Dutch	Speech perception
891		Meng Yang	An asymmetric perceptual dependency between pitch and breathiness	Speech perception
385		Adrian P. Simpson	Detecting larynx movement in non-pulmonic consonants using dual-channel electroglottography	Speech production and articulatory phonetics
449		Elizabeth Bird	Dynamics of voice quality over the course of the English utterance	Speech production and articulatory phonetics
573		Weijun Zhang	A Preliminary Study on the Age Variation of the Voicing Contrast in Wenzhou Wu Chinese	Speech production and articulatory phonetics
787		Jiyoung Jang	Prosodic-structural effects on voice quality associated with Korean three-way stop contrast	Speech production and articulatory phonetics
793		Christopher Geissler	Tonal and laryngeal contrasts in Diaspora Tibetan	Speech production and articulatory phonetics
74		Jana Neitsch	Questions as prosodic configurations: How prosody and context shape the multiparametric nature of rhetorical questions in German	Speech prosody
111		Zohreh Shiamizadeh	When is a wh-in-situ question identified in standard Persian?	Speech prosody
283		Mimi Tian	Burmese quotation intonation	Speech prosody
289		Michiko Watanabe	Comparison of Factors Related to Clause-Initial Filler Probabilities in English and Japanese	Speech prosody
403		Na Hu	The Role of prosody in Distinguishing Different Types of Causal Relations in English	Speech prosody
522		Z.L. Zhou	Is this in the phonology? Examining the intonational phonetics-phonology interface with American English polar questions	Speech prosody
684		Chunyu Ge	Intonation of Cantonese interrogative sentences with and without sentence final particle	Speech prosody
713		Li-Fang Lai	Similar, but not the same: Neutral and confirmation-seeking questions in Mandarin	Speech prosody
837		Irina Shport	On the relationship between syntactic and prosodic boundaries: Free relative clauses in Appalachian English	Speech prosody
1015		Yeonje Seo	Prosodic case marking in the absence of morphological case markers in Korean	Speech prosody
32		Katelyn Phillips	Using MAUS to Investigate Children's production of Lexical Stress	Speech prosody
109		Heete Sakhai	Intensity and spectral parameters as correlates of phrasal stress and word quantity in Estonian	Speech prosody
134		Ting Huang	Articulation of English "Prominence" by L1 (English) and L2 (French) speakers	Speech prosody
143		Tae-Jin Yoon	Segmental Effects on the Accentual Phrase in Korean	Speech prosody
254		Constantijn Kaland	Stress predictors in a Papuan Malay random forest	Speech prosody
498		Bethany Sturman	The emphatic juncture: A novel use of the IP boundary in English	Speech prosody
609		Nuria Martínez García	The prosody of repeated mentions in Yucatecan Spanish	Speech prosody
629		Nadja Schauffler	Stress shift and prosodic focus marking in L1 and L2 English	Speech prosody
738		Shi Yu	The effect of sub-glottal pressure on stress and fundamental frequency	Speech prosody
972		Piotr Gąsiorowski	Levels of stress in English: their phonetic reality and phonological status	Speech prosody

International Congress of Phonetic Sciences ICPhS 2019
Melbourne Convention and Exhibition Centre
Poster listing: 5 - 9 August 2019
Main Foyer 2 & 3

Tuesday 6 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
39		Rebecca Holt	Visual speech cues improve children's processing speed in both quiet and noise	Phonetic psycholinguistics
250		Frank Lorenz	L2 Phoneme Categories, Lexical Access and Foreign-Accent	Phonetic psycholinguistics
380		Johannah O'Mahony	An Investigation into Exemplar Effects in the Perceptual Learning Paradigm.	Phonetic psycholinguistics
542		Seiya Funatsu	The verbal transformation effect in Japanese	Phonetic psycholinguistics
578		Chen Shen	Articulatory control in speech production	Phonetic psycholinguistics
590		Diana Tomić	Phoneme awareness task - measure of quality of phonological representations	Phonetic psycholinguistics
671		Thanh Lan Truong	Phonetic-to-lexical mapping in listening to adult and child speech	Phonetic psycholinguistics
895		Nicole van Rootselaar	The effect of manual action on vowel production for nouns and verbs	Phonetic psycholinguistics
901		Nobuaki Minematsu	Influence of content variations on smoothness of native speakers' reverse shadowing	Phonetic psycholinguistics
919		John Kingston	Lexical knowledge does not improve discriminability	Phonetic psycholinguistics
106		Hiroki Fujita	Does repeated exposure to segmental sounds improve perceptual ability in non-native speakers?	Phonetics of second and foreign language acquisition
123		Yanping Li	Hybrid perceptual training to facilitate the learning of nasal final contrasts by highly proficient Japanese learners of Mandarin	Phonetics of second and foreign language acquisition
170		Ocke-Schwen Bohn	Perceptual assimilation and graded discrimination as predictors of identification accuracy for learners differing in L2 experience: The case of Danish learners' perception of English initial fricatives	Phonetics of second and foreign language acquisition
195		Yongzhe Peng	The perception of Mandarin sibilants by Japanese speakers: prediction by PAM	Phonetics of second and foreign language acquisition
244		Mary Stevens	Individual differences and sound change actuation: evidence from imitation and perception of English /str/	Phonetics of second and foreign language acquisition
301		Sidse Rasmussen	Vowel context affects L2 Chinese learners' identification of postalveolar sibilants	Phonetics of second and foreign language acquisition
543		Michael Tyler	Perceptual assimilation of English dental fricatives by native speakers of European French	Phonetics of second and foreign language acquisition
638		Jeffrey Holliday	The perception of Korean stops by native speakers of Spanish	Phonetics of second and foreign language acquisition
822		Juli Cebrian	Perceptual asymmetries and lexical effects in L2 vowel discrimination	Phonetics of second and foreign language acquisition
219		Galina Kedrova	Interference of L1 syllabification patterns in L2 speech of Chinese learners of Russian as foreign language	Phonetics of second and foreign language acquisition
273		Christiane Ulbrich	Convergence on the segmental and the suprasegmental level between native speakers and Spanish L2 learners of German	Phonetics of second and foreign language acquisition
277		Katherine Marcoux	Pitch in Native and Non-Native Lombard Speech	Phonetics of second and foreign language acquisition
634		Nina Hosseini-kivanani	Phonetic accommodation in the fundamental frequency of Korean-English bilinguals and English monolinguals	Phonetics of second and foreign language acquisition
648		Ralph Rose	A crosslinguistic corpus study of silent and filled pauses: When do speakers use filled pauses to fill pauses?	Phonetics of second and foreign language acquisition
652		Bingru Chen	On the Duration Patterns of English by Native British Speakers and Mandarin ESL Speakers	Phonetics of second and foreign language acquisition
988		Isadora Reynolds	Second language fluency: Re-Thinking utterance fluency from a phonetics-phonology interface	Phonetics of second and foreign language acquisition
13		Michaela Hejrná	A case study of menstrual cycle effects: global phonation or also local phonatory phenomena?	Sociophonetics and phonetic variation
276		Liis Ermus	Predictability of plosive reduction from written text in Estonian	Sociophonetics and phonetic variation
358		Sabine Zerbian	Stressed pronouns in spontaneous spoken German	Sociophonetics and phonetic variation
643		Damien Hall	Sociophonetics of the Le Havre accent	Sociophonetics and phonetic variation
686		Coline Caillol	The sociophonetics of British heavy metal music: T voicing and the FOOT-STRUT split	Sociophonetics and phonetic variation
710		Kate Earnshaw	"We don't pronounce our t's around here": realisations of /t/ in West Yorkshire English	Sociophonetics and phonetic variation
939		Betsy Pillion	acoustic Properties of Para-Phonemic Sounds: Clicks in American English	Sociophonetics and phonetic variation
977		Caitlin Halfacre	North-South Dividers in privately educated speakers: a sociolinguistic study of Received Pronunciation using the FOOT-STRUT and trap-bath distinctions in the North East and South East of England.	Sociophonetics and phonetic variation
29		Brandon Baird	Language-Specific Pitch Ranges among K'ichee'-Spanish Simultaneous Bilinguals	Sociophonetics and phonetic variation
158		Chun-Mei Chen	Phonetics of voiceless stops and word-level prosody of Paiwan in urban migration communities	Sociophonetics and phonetic variation
178		Maxwell Schmid	Vocal pitch and intonation characteristics of those who are gender non-binary	Sociophonetics and phonetic variation
274		Lotte Eijk	Alignment of Pitch and Articulation Rate	Sociophonetics and phonetic variation
530		Matthias Hahn	Speaking Rate and Phonetic Reduction in German	Sociophonetics and phonetic variation
624		Valentina De Iacovo	Intonation of Sicilian among Southern Italo-romance dialects	Sociophonetics and phonetic variation
1014		Janice Wing Sze Wong	Pitch Characteristics and the perception of Female Sexuality in Cantonese	Sociophonetics and phonetic variation
374		Alexandra Markó	The effect of focal accent on vowels in Hungarian: Articulatory and acoustic data	Speech acoustics
818		Marie Dokovova	Bulgarian Vowel Reduction in Unstressed Position: an Ultrasound and acoustic Investigation	Speech acoustics
907		Sarah Babinski	Phonetic variation across Australian languages	Speech acoustics

International Congress of Phonetic Sciences ICPhS 2019
Melbourne Convention and Exhibition Centre
Poster listing: 5 - 9 August 2019
Main Foyer 2 & 3

Tuesday 6 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
996		Brett Baker	Acoustic correlates of lexical stress in Wubuy	Speech acoustics
1033		Emanuela Buizza	Maintaining contrast in reduced speech in Standard Southern British English	Speech acoustics
77		Joanna Przedlacka	Intonational variation and diachrony: Greek contact varieties	Speech corpora and big data
90		Jürgen Trouvain	Are 'silent' pauses always silent?	Speech corpora and big data
442		Mafuyu Kitahara	The effect of lexical competition on realization of phonetic contrasts: A corpus study of the voicing contrast in Japanese	Speech corpora and big data
27		Mohd Hilmi Hamzah	The secondary roles of amplitude and F0 in the perception of word-initial geminates in Kelantan Malay	Speech perception
72		Hinako Masuda	Task differences in the identification of English consonants in noise by Japanese listeners	Speech perception
349		alexander kilpatrick	Predictability and Japanese Perceptual Epenthesis	Speech perception
500		Izabelle Grenon	Can Japanese listeners perceive a difference between an underlying glide and an epenthetic glide?	Speech perception
915		Amanda Rysling	Sibilant and non-sibilant fricatives are parsed alike	Speech perception
99		Maya Barzilai	Acoustic Salience and Naturalness in Vowel Recall	Speech perception
119		Kofi Adu Manyah	Non-native speakers' identification of lexical tone contrasts	Speech perception
162		Debbie Loakes	Tracking vowel categorisation behaviour longitudinally: A study across three x three year increments (2012, 2015, 2018)	Speech perception
165		Yao Lu	A categorical Perceptual Study on Mandarin Tones by Zaiwa language speakers	Speech perception
225		Natsuya Yoshida	Vowel devoicing in Tokyo Japanese: its lexical status	Speech perception
286		Anastasiia Tsukanova	Can static vocal tract positions represent articulatory targets in continuous speech? Matching static MRI captures against real-time MRI for the French language	Speech production and articulatory phonetics
538		Mitsuhiro Nakamura	Exploring temporal characteristics of lingual gestures in American English /l/	Speech production and articulatory phonetics
544		Maho Morimoto	Strategies for geminating liquids in Japanese	Speech production and articulatory phonetics
662		Tunde Szalay	Lingual configuration of Australian English /l/	Speech production and articulatory phonetics
675		Jo Verhoeven	Asymmetries in speech articulation as reflected on palatograms.	Speech production and articulatory phonetics
789		Douglas Shiller	Speech adaptation to palatal perturbation: Evidence for sensorimotor reorganization across the workspace	Speech production and articulatory phonetics
832		Kristin Teplansky	Tongue and Lip Motion Patterns in Voiced, Whispered, and Silent Vowel production	Speech production and articulatory phonetics
923		Daejin Kim	Phonetic conditioning of word frequency and contextual predictability effects in American English conversational speech	Speech production and articulatory phonetics
139		Amalia Arvaniti	Evidence for the compositionality of tunes and intonational meaning	Speech prosody
351		Jessica Siddins	Pitch accent realisation in Austrian German	Speech prosody
411		Manami Hirayama	Lexical category in downstep in Japanese	Speech prosody
541		Hui-Yu Chien	Are Nuclear Accents Easier to Acquire than Prenuclear Accents? — Using Peak Alignment in advanced Mandarin EFL Learners as an Example	Speech prosody
747		Luigi (Yu-Cheng) Liu	Automatic modelling and labelling of speech prosody: what's new with SLAM+ ?	Speech prosody
834		Judith Manzoni	prosody in Luxembourgish: the example of nuclear falling contours	Speech prosody
51		Mingqiong Luo	Durational Reflex of Syllable Structure in Shanghai Chinese (SH)	Speech prosody
156		Boikanyego Sebina	The Penultimate Syllable Vowel Length among Setswana-English Bilingual Children.	Speech prosody
205		Jeremy Steffman	Testing the influence of distal rhythmic structure on listeners' perception of durational cues	Speech prosody
379		Radek Skarnitzl	The effect of durational cues on the reassignment of a syllable in the metrical structure of Czech sentences	Speech prosody
423		Christine Prechtel	Quantifying Macro-rhythm in English and Spanish	Speech prosody
511		Noriko Hattori	Two Kinds of Metrical Shifts in English Text-setting	Speech prosody
588		Chengxia Wang	Mandarin and English use different temporal means to mark major prosodic boundaries	Speech prosody
595		Shigeaki Amano	Logarithmic duration to predict and discriminate singleton and geminate consonants in Japanese	Speech prosody
124		Shu-chen Ou	The role of initial f0 rise in speech segmentation: a cross-linguistic study	Speech prosody
163		C. T. Justine Hui	Effect of frequency discrimination ability of elderly listeners on Japanese pitch accent pairs	Speech prosody
360		Jesse Harris	Using pupillometry to assess prosodic alignment in language comprehension	Speech prosody
363		Bei Wang	Effect of Boundary Strength on Focus Scope in Mandarin : Comparing single and dual focus	Speech prosody
371		Una Y. Chow	Native, Naïve, and Exemplar-based perception of Statement and Question Intonation in Cantonese and Mandarin	Speech prosody
676		Luma da Silva Miranda	Audiovisual perception of wh-questions and wh-exclamations in Brazilian Portuguese	Speech prosody
731		Riccardo Orrico	The perception of speaker certainty in Salerno Italian intonation	Speech prosody
858		Oyedeji Musiliyu	Electrophysiological correlates of prosodic boundaries at different levels in Brazilian Portuguese.	Speech prosody
19		Dafydd Gibbon	CRAFT: A Multifunction Online Platform for Speech prosody Visualisation	Speech technology

International Congress of Phonetic Sciences ICPhS 2019
Melbourne Convention and Exhibition Centre
Poster listing: 5 - 9 August 2019
Main Foyer 2 & 3

Tuesday 6 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
110		Sabrina Jenne	Phonological Error Detection for Pronunciation Training Using Neural Spectrogram Recognition	Speech technology
192		Ioannis K. Douros	Comparison between 2D and 3D simulation models for speech production: a study of French vowels	Speech technology
240		Noel Hanna	Open source real-time acoustic excitation technique for vocal tract resonance estimation at the lips	Speech technology
636		Emily Lau	Toward Predictive Modelling for AM Theory of Intonation	Speech technology
759		Beiming Cao	Language Independence of Articulation-to-speech Synthesis: A Preliminary Study	Speech technology
777		Maryam Al Dabel	An Optimisation Approach for Enhancing Speech Intelligibility Using Time-varying Spectral Shaping in Noise	Speech technology

Wednesday 7 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
89		Ivana Didirkova	Articulatory behaviour during disfluencies in stuttered speech	Clinical phonetics
91		Marziye Eshghi	Instrumental evaluation of velopharyngeal dysfunction in amyotrophic lateral sclerosis	Clinical phonetics
334		Maria Wolters	Distinct Prosodic Correlates for Nine Dimensions of Mental Health Symptoms	Clinical phonetics
364		Ping Tang	The representation of tone sandhi by children with cochlear implants	Clinical phonetics
440		Marisa Lucarelli	Articulating a Female Vowel: Transition from Male-to-Female Gender	Clinical phonetics
448		Benjamin Tucker	Automatic speech intelligibility scoring of head and neck cancer patients with deep neural networks	Clinical phonetics
482		Maria Francisca Paula Soares	A comparison on vowel production after two speech therapy approaches	Clinical phonetics
503		Aijun Li	Spectral Analysis of Sibilant Fricatives and the Ling Sound Test for Speakers of Chinese Dialects	Clinical phonetics
695		Anja Kuschmann	The role of speaking tasks in the acoustic characterization of dysarthria in children with cerebral palsy	Clinical phonetics
720		Adirek Munthuli	Assessment of Phonological Awareness in Thai Children at Risk for Learning Disabilities	Clinical phonetics
761		Beiming Cao	Comparing the Performance of Individual Articulatory Flesh Points for Articulation-to-Speech Synthesis	Clinical phonetics
788		Vass Verkhodanova	Prosodic Changes in the Speech of a Single Speaker with Parkinson's Disease	Clinical phonetics
813		Corinne Fredouille	Acoustic-phonetic decoding for speech intelligibility evaluation in the context of Head and Neck Cancers	Clinical phonetics
900		Yu Zhang	Processing speaker variability in Mandarin spoken word recognition: A clinical case study.	Clinical phonetics
1001		Anneke Slis	Glottal Characteristics of People who Stutter and the Interactions with Syllable Complexity.	Clinical phonetics
30		Bruce Xiao Wang	The effect of speaker sampling to system stability in likelihood ratio based forensic voice comparison	Forensic phonetics
102		Hinako Masuda	Protecting speech privacy from native/non-native listeners - effect of masker type	Forensic phonetics
344		Yu Zhang	Speaker individuality in the durational characteristics of voiced intervals: the case of Chinese bi-dialectal speakers	Forensic phonetics
601		Vincent Hughes	Effects of formant analysis settings and channel mismatch on semi-automatic forensic voice comparison	Forensic phonetics
647		Adriana Hanulikova	Social expectations do not always improve speech perception	Forensic phonetics
649		Sula Ross	A cautionary tale for phonetic analysis: the variability of speech between and within recording sessions	Forensic phonetics
616		Melanie Weirich	Effects of gender, parental role and speech material on infant-directed speech in Swedish	Phonetics of first language acquisition
654		Weicong Li	An acoustic analysis of Nungon vowels in child- versus adult-directed speech	Phonetics of first language acquisition
733		Sonia Frota	Infant perception of prosodic boundaries without the pause cue: An eye-tracking study	Phonetics of first language acquisition
80		Graham McKenzie	A Cross-Language Comparison of VOT Development in English- and Mandarin-speaking Children and Adolescents	Phonetics of first language acquisition
149		Phil Howson	Liquids coarticulation in child and adult speech	Phonetics of first language acquisition
151		Casey Ford	Spectral features of voiceless fricatives produced by Australian English-speaking children	Phonetics of first language acquisition
269		Isabel Guimaraes	Speech sounds data for typically developing European Portuguese children 6-9;11 years old	Phonetics of first language acquisition
445		Jue Yu	production of Mandarin stop consonants in prelingually deafened children with cochlear implants	Phonetics of first language acquisition
469		Margaret Cychosz	Holistic lexical storage: Coarticulatory evidence from child speech	Phonetics of first language acquisition
540		Xunan Huang	Seven-year-olds reach an adult-like productivity in the application of Mandarin tone sandhi	Phonetics of first language acquisition
615		Diana Tomić	Speech sound development of Croatian children at the age of 3	Phonetics of first language acquisition
845		Nari Rhee	Integration of spectral cues in the development of Mandarin tone production	Phonetics of first language acquisition
1012		Daniela Mueller	Children's perception of the Albanian dark-clear lateral contrast	Phonetics of first language acquisition
625		Mariia Pronina	A new tool to assess pragmatic prosody in children: evidence from 3- to 4-year-olds	Phonetics of first language acquisition
299		Bistra Andreeva	Information density and vowel dispersion in the productions of Bulgarian L2 speakers of German	Phonetics of second and foreign language acquisition
533		Shuju Shi	Acoustic Analysis of L1 Influence on L2 Pronunciation Errors: A Case Study of Accented English Speech by Chinese Learners	Phonetics of second and foreign language acquisition
574		Tsuneo Kato	Analysis of L2 English vowel production by native Japanese children in domestic elementary school	Phonetics of second and foreign language acquisition
729		Ronaldo Lima Jr	A longitudinal study on the acquisition of six English vowels by Brazilian learners	Phonetics of second and foreign language acquisition
851		Sarah Bakst	Self-correction in L1 and L2 vowel production	Phonetics of second and foreign language acquisition

International Congress of Phonetic Sciences ICPhS 2019
Melbourne Convention and Exhibition Centre
Poster listing: 5 - 9 August 2019
Main Foyer 2 & 3

Wednesday 7 August Poster Listing

Paper ID	Poster Number	Submitting Author	Title	Scientific Area
888		Jaekoo Kang	Benign vs. harmful variability in second language vowel production	Phonetics of second and foreign language acquisition
57		Akihito Desaki	The use of pitch and duration on new and given information by native and non-native speakers of English and its pedagogical implications	Phonetics of second and foreign language acquisition
65		Ildiko Emese Szabo	Phonetic selectivity in accommodation: The effect of chronological age	Phonetics of sound change
348		Alyssa Strickler	Within-speaker perception and production of dialectal /aɪ/-raising	Phonetics of sound change
501		Catherine Watson	Divergence of TRAP and FACE in Auckland English: a potential regional sound change in New Zealand English.	Phonetics of sound change
508		Jungah Lee	Production and perception of North Korean and South Korean Vowels: A pilot study	Phonetics of sound change
859		Eun Jong Kong	Cross-generational perception of non-front vowels in Seoul Korean	Phonetics of sound change
